Program Synopsis

Oral Health Products for Home Use: What Should I Recommend?

Which powered toothbrush should I buy? Is it safe to use whitening toothpaste everyday? Does it make any difference which ADA accepted fluoride toothpaste I use? Which herbal mouth rise reduces gum disease? How can I get some relief from this dry mouth and the bad breath that goes with it? Patients ask you questions about home use dental products more frequently than they ask about any other oral health subject. They need your professional guidance now more than ever in making the best choice based on their unique set of circumstances. Karen Baker will compare manufacturer claims and objective clinical data concerning both mechanical and chemotherapeutic products for gingivitis and calculus reduction. An extensive and very current handout that will help you design optimal home care regimens based on patient-specific factors accompanies this comprehensive summary of product information.
